South Bronx Community Resources and Services Directory

The Mott Haven Community Partnership Program (MHCPP) is a collaboration among the Administration for Children's Services, ACS foster care & preventive agencies, local service providers & stakeholders to help provide neighborhood based services to children and families in their own communities. The Partnership is a forum where agencies can share resources, ideas, information, referrals, as well as engage in joint planning, coordination, training, and advocacy.

Another prospect for the MHCPP is the development of community based child welfare strategies that will lead the realignment of child welfare services, ensuring that families, communities, and government work successfully together to keep our City's children safe and families thriving.

This South Bronx Community Resources and Services Directory, developed by The Mott Haven Community Partnership Program, contains resources and services primarily in Community District One and the surrounding neighborhoods in the South Bronx. Additionally, we have included Bronx Borough-Wide mental health and preventive services.

We plan to regularly update this Directory and if you wish to include your organization's services in a future version or would like to obtain a PDF copy, please send your requests to John Rios at JRNYCNY@GMail.com
